Perfil

I have experience in front-end technologies, including React Native, React.js, Next.js, Tailwind CSS, and Styled Components. Currently, my focus is on mobile app development. I am communicative and have a knack for visual art-related work due to my background in design. I have experience with prototyping tools such as Figma and image editing software like Photoshop.

Histórico Profissional

- **u.legal**
  Mobile Developer – 01/2024 ~ present:
  I work as a mobile developer, primarily using React Native, supporting both Android and iOS platforms. I am involved in developing new features and maintaining existing ones.

- **Digital Growth**
  Front-end Developer | UI Designer – 04/2023 ~ 05/2024:
  Developed custom layouts for e-commerce websites, particularly on Mercado Shops, using Figma. Implemented the front-end within platform constraints using Handlebars, Javascript, and Tailwind.
